

The ENVIROPAEDIA

SCHEDULE 1

ACTIVITY ICONS

Please choose activity icons that reflect the nature of your organisations core activities.

Air (EGS)

Environmental Goods & Services relating to and affecting Air; including quality control, instrumentation & control, and products, systems and services for the prevention, reduction and removal of gaseous and particulate pollutants from air.

Animal Welfare

Any organisation or activities relating to the welfare of all animals, domestic and wild.

Architecture (EGS)

Environmental Goods & Services relating to the design, construction and management of hard landscape works in urban, semi-urban and rural areas, including suppliers, designers and implementation/maintenance contractors and consultants.

Biotechnology (EGS)

Environmental Goods & Services involving the use of living organisms to solve an engineering problem or perform an industrial task or the use of biological substances or techniques to engineer or manufacture a product or substance

Botanical

Activities pertaining to, made from, or containing plants.

Cleaner Production ~ Technologies & Products (EGS)

Environmental Goods & Services that facilitate cleaner, more resource efficient technologies, processes or products

Commerce, Trade & Industry

Activities including Communications & Information Technology, Banking & Finance, Manufacturing, Mining, Retailing, Transport

Community Development & Management

Activities relating to all aspects of development & management embracing the input from and upliftment of communities

Conservation

Activities relating to the conservation of Fauna, Flora, Culture, Architecture, Marine Environment, Wilderness and Protected Areas

Consultancy Services (EGS)

Services to provide assessment and advice relating to environmental issues - Including environmental audits, environmental management systems & training, life cycle assessment, environmental impact assessment, advice on biodiversity, regulations & corporate responsibility.

Corporate, Social & Environmental Responsibility

Activities pertaining to the consideration of customers, employees, shareholders, communities, and the environment within the structures, management & operations of business.

Ecotourism

Activities relating to all aspects of sustainable tourism

Education

Activities relating to Environmental Education, Training & Courses

Energy (EGS)

Environmental Goods & Services relevant to all aspects of energy; including Management & Efficiency, Renewable Energy and Supply

Engineering & Construction Industry (EGS)

Environmental Goods & Services relating to the design, construction and management of hard landscape works in urban, semi-urban and rural areas, including suppliers, designers and implementation/maintenance contractors and consultants.

Environmental Law & Risk Management (EGS)

Services relating to environmental Law & Legislation, Risk & Liability.

Environmental Management & Planning (EGS)

Services relating to Environmental Impact Assessment, Auditing & Due Diligence, Environmental Health, and Land Use Planning

Environmental Media

Activities and services relating to communications, broadcasting, electronic media, information media, press, radio, television or public relations pertaining to the environment

Environmentally Friendly Products & Services

Products & Services specifically designed to have minimal negative impact on the Environment and Society including Food & Beverages, Cleaning Products, Clothing & Accessories, Health & Beauty, Baby & Child Care, Appliances, Transport, Holiday & Leisure, Petcare, Garden & Home, Décor & Furniture, Energy, Water Saving, Recycling Goods & Services, Office Supplies & Equipment

Farming

Products & Services relating to Agriculture, Forestry, Fisheries

Governance

Activities relating to Legislation, and National & Local Government

Healthcare

Goods, Services & Activities relating to Human Health particularly pertaining to environmental factors

Landscaping & Urban Greening (EGS)

Environmental Goods & Services relating to the design, construction & management of soft landscape works in urban, semi-urban and rural areas, also landscape assessment/planning. Encompasses suppliers, designers & implementation/maintenance contractors & consultants.

Marine

Activities, processes, systems, goods & services (EGS) related to the marine environment, including Fisheries, Pollution Control, Research & Development

Monitoring, Instrumentation & Analysis (EGS)

Environmental Goods & Services for measuring and monitoring environmental parameters, including water, air and soil quality, meteorological conditions and flow rates, including on site and laboratory analysis.

Noise & Vibration Control (EGS)

Environmental Goods & Services relating to the identification and examination of noise and vibration issues in general; specification and analysis, definition and evaluation of solutions

Non-Profit Organisation

Organisations including NGO's, CBO's, TRUST's, SECTION 21 COMPANIES etc.

Professional Associations & Institutions

Organisations that are officially recognised within their industry sector as a Professional Association or Institution

Recycling & Recovery (EGS)

Environmental Goods & Services relating to any part of the cycles of reclamation, recovery, refining, reprocessing or conversion of discarded products and materials

Remediation & Cleanup (EGS)

Environmental Goods & Services relating to the identification, assessment & remediation/reclamation of land & buildings, including prevention of contaminant dispersal. Examples include adsorbents & injection equipment, monitoring systems & treatment processes, sampling/analysis, site investigation/ engineering & re-vegetation techniques.

Research & Development

Activities relating to basic or applied research for the purpose of creating new, or for improving existing materials, devices, products or processes.

Specialist Services

Specific services which are not represented by any of the other listed activities

Standards, Certification & Accreditation (EGS)

Services relating to the official sanctioning of various environmental standards, certification or accreditation or involved in development thereof.

Sustainable Development

Activities, Goods or Services designed to support the process of 'Development that meets the needs of the present without compromising the ability of future generations to meet their own needs.' and which demonstrate a care and respect for People and Planet.

Waste Management (EGS)

Environmental Goods & Services relating to the minimisation, collection, treatment, segregation, and disposal of waste including paper, organics, metals, glass, plastics, demolition and construction wastes, electrical and white goods.

Water (EGS)

Environmental Goods & Services including Research or Conservation relating to Wastewater, Water Supply, Water Quality, Water Management

Wildlife

Activities relating to Wildlife Conservation, Research and Development, including Avian Research & Development, Entomology, Wildlife Products & Services, and Wildlife Management.

Schedule 2 ...

SCHEDULE 2

ASSOCIATED TOPICS

Please choose Topics that are relevant to your organisations core activities and that you would like readers to contact you for help, support or services relating to these Topics.

Acid mine water drainage
Activism
Aerosol
Aesthetics
Afforestation
Agenda 21
Agriculture
Agroforestry
Air Quality
Alien Invasive Plants in South Africa
Alternative Fuels
Animal Welfare
Aquaculture
Asbestos
Atmosphere
Atmospheric Pollution
Avian Rehabilitation
The African Sausage Tree
Bacteria
Baobab Tree
Basel Convention
Biodegradable
Biodiversity
Biodiversity and the sixth distinction
Biodynamic Agriculture
Biofuels
Biological Pest Control
Biomass
Biome
Biomimicry
Bioprospecting
Bio-remediation
Biosphere
Biosphere Reserve / Region
Birding
Birds + blue flag beaches
Blue-green Algae – Cyanobacteria

Cape Floral Region
Carbon
Carbon Calculator
Carbon Dioxide
Carbon Disclosure Project (CDP)
Carbon Monoxide
Carbon Storage / Sequestration
Carbon Trading
Carcinogens
Carrying Capacity
Catalytic Converters
Catchment Management
Chernobyl
CITES
Cleaner Production
Climate Change
Coastal Zone Management
Combined Heat & Power
Companion Planting
Composting
Conservancies
Conservation
Conservation Planning (Systematic)
Consumerism
Contaminated Land
Corporate Citizenship
Cultural Resources
Deep Ecology
Deforestation
Desalination
Desertification
Dilution
Dioxins
Dissolved Oxygen Content
Drip Irrigation
E-Waste
Earth Charter

Eco-catastrophe
Eco-efficiency
Eco-Labeling
Eco-fashion
Eco-Logic
Ecological Footprint
Ecological Landscaping
Ecology
Economic Growth
Eco-Management & Audit Scheme (EMAS)
Economics
Economics of the Environment
Ecosphere & Ecosystems
Eco-Systems and Eco-System Services
Eco-taxes
Ecotourism
Eco-villages
Ecocide
El Nino
Endangered & Threatened Species
Endocrine Disrupting Chemicals
Energy Choices
Entomology
Environmental Accounting
Environmental Auditing
Environmental compliance
Environmental Degradation
Environmental Due Diligence
Environmental Education
Environmental Ethics
Environmental Goods & Services
Environmental Health
Environmental Impact Assessment (EIA)
Environmental Justice
Environmental Law & Liability
Environmental Management
Environmental Refugees
Environmental Standards
Environmental Toxicology
Equator Principles
Eutrophication
Extinction
Exxon Valdez Disaster

Eco Fashion
Fair Trade
Fire
Fisheries - The Ecosystem Approach
Food Security
Forestry
Fossil Fuels
Fracking & Gas Extraction
Freshwater Ecology
Gabions
Gaia
Game Farming
Genetic Modification ~ The 'Anti' Position
Genetic Modification ~ The 'Pro' Position
Geographical Information Systems (GIS)
Geothermal Energy
Global Change
The United Nations Global Compact (UNGC)
Global Reporting Initiative
Governance
Grasslands
Green Architecture
Green Buildings
Green Buildings – using natural materials
Green Scorpions
Green Soldiering
Green wash
Grey water
Groundwater
Hemp
Heritage
HIV, Aids and Water
Hunting & Related Issues
Hydro Electric Energy
ICLEI ~ Local Governments for Sustainability
Incineration of Waste
Indigenous Peoples
Indigenous Plants
Industrial Ecology
Integrated Environmental Management (IEM)
Integrated Pest Control
Integrated Pollution and Water Management (IPM & WM)

Interested & Affected Parties (AIP's)
IUCN
Karoo Biome
Kyoto Protocol
Land Degradation
Landfill
Landscape Architecture
Leachate
Legionella
Life Cycle Assessment (LCA)
Light Pollution
Local Agenda 21
Long Term Mitigation Scenarios (LTMS)
Marine Alien Species
Marine Environment
Medicinal Herbs
Methane
Mineral Resources
Mining in sensitive areas
Mires & Peatlands
Monoculture
Montreal Protocol
National Environmental Management Act (107 of 1998)
National Environmental Management – Specific Environmental Acts : Protected Areas ; Biodiversity; Air Quality ; Integrated Coastal Management ; Waste
National Parks
Natural Disasters
Natural Products Commercial Utilization
Natural Resources
NIMBY (Not In My Backyard)
Nitrogen
Noise Pollution
Non-Renewable Resources
Nuclear Energy ~ The 'Anti' Position
Nuclear Energy ~ The 'Pro' Position
Nuisance
Oil Peak
Organic Certification
Organic Farming
Organic Food
Oxygen

Ozone
Paint
Paper Recycling in South Africa
Particulates
Permaculture
Pesticide Treadmill
Pesticides
Petrochemicals
pH Scale
Photochemical Smog
Pioneer Species
Plastics
Polluter Pays Principle
Pollution
POPS & POPS Convention
Population Growth & Sustainable Development
Poverty Alleviation through Sustainable Development
Precautionary Principle
Public Participation (Consultation)
Radiation
Rainwater Harvesting
Ramsar Convention
Recycling
Rehabilitation of Land
Renewable Energy - Power
Renewable Resources
Resource Efficiency
Responsible Care
Rivers & Wetlands
Safety, Health & Environment (SHE)
Sanitation
South African Risk & Vulnerability Atlas (SARVA)
Seafood – South African Sustainable Seafood Initiative (SASSI)

Urban Agriculture
Urban Greening
Urbanisation
Used Oil

Vetiver Grass
VOCs (Volatile Organic Compounds)
The Woolworths Good Business Journey
Waste Management
Water
Water ~ Conflict
Water ~ Urban Run-off
Wetlands
Wilderness Area
Wildlife
Wildlife Management
Wind Energy
Wind Farming
Women and The Environment
Worm Farming (Vermiculture)
Zero Waste

Sustainable Development Topics - Thought Leadership

- Eco-Logic
- Eco-Entrepreneurs needed to save our Earth
- Engineering the future in Africa
- Eco-Ubuntu
- Earth – The Universal Declaration of the Rights of Mother Earth
- Eco –Tourism
- Ecological Sustainability and the Law
- National Strategy for Sustainable Development(NSSD)
- Maintaining Profits or Sustaining People & Planet
- The Business Case
- The Spiritual Imperative
- Skills for the Future
- South Africa's Green Economy Strategy
- Financing Climate Resilient Development
- Economic Growth – Beyond GDP
- Compassionate New Economics
- The Woolworths "Good Business Journey"
- A Manufacturers Response to Five Megatrends
- An Insurance Company Response to a Changing World
- Green Supply Chains
- The Living Planet Report – WWF
- Energy – commentary & overview
- Water – overview
- African Environmental Tradition
- The Story of our Future
- African Spirit of Sustainability
